## OBJECTIVE

I'm looking for new challenges as Front-End Developer.

## PERSONAL STATEMENT

I'm Front-End Developer since 2008, I work with small and large projects like web sites, e-commerce and mobile applications, developing responsive and dynamic interfaces with performance and layout consistency.

## TECHNICAL SKILLS

- Experience in HTML5, CSS3, LESS/SASS, cross browser compatibility, SEO and accessibility techniques;
- I have excellent knowledge in Bootstrap, JavaScript, Angular, JQuery, Ionic, Cordova, REST API integration and basic knowledge in AMP, GULP, NPM and SQL;
- SCRUM methodology;
- Tools: Photoshop, Visual Studio and Sublime;
- Version Control: GIT, Bitbucket and TFS.

## PERSONAL SKILLS

- Responsible and dedicated professional;
- Concentrated and focused on work;
- Fast and efficient, with attention to detail;
- Collaboration and teamwork.
